

B & B Fabrication

WELDING, REPAIRS & FABRICATION

CAPABILITY STATEMENT

B&B Fabrication

WELDING, REPAIRS & FABRICATION

Introduction

B&B Fabrication are a quality assured welding and fabrication company committed to the highest of safety standards and minimising environmental impacts. We offer both innovative solutions and customary workmanship in components, steel structures and equipment to agricultural, transportation, mining, industrial and construction sectors.

Through thorough project management and prime location we have limited the risks to delivery times. Our quality and professionalism make us a valued partner to our clients companies.

“Combining traditional fabrication with a culture of professionalism and risk management”.

Our team is devoted to an excellence performance approach and would encourage you to experience first hand the value we can offer your company.

Company Profile

B&B Fabrication is a triple certified (Safety, Quality, Environment ISO 9001, ISO 14001 and NZ/AS 4801 Quality Assured) welding and fabrication company providing components and steel structures to agricultural, oil and gas, mining, Industrial and construction clients in the Surat Basin. Based in Dalby, B&B Fabrication are welding specialist with in-house design abilities and high quality fabrication capabilities.

B&B Fabrication Specialise in Operations and Maintenance infrastructure. We understand the importance of quick turnaround services in order to keep our customers businesses and work production flowing. Our enthusiasm towards responsiveness to limit your down time is a gravitational pull for repeat customers.

“We are always happy with the service B&B Fabrication has provided us over the years. They have meet our needs professionally and have always been on time with products. I highly recommend B&B Fab to other businesses.”
Eugene Murray –Maintenance Manager At Arrow Energy

B & B Fabrication are sensitive to project deadlines. We like to work with the companies needs. B & B Fabrication strives to provide rapid response services and paperwork trail including quotes and invoices and other communications. We are able to be contacted after hours. B & B Fabrication is also able to offer progressive delivery for component work as we have sufficient space to hold components until needed.

B & B Fabrication has a pool of “off time workers” or “Ghost” workers that we call on when we briefly need extra staff. We also have a close working relationship with other local welding companies that can pool their expertise with our company when necessary.

Dalby and West, including Western Downs, Surat Basin and Central QLD, Goondiwindi and into NSW is where we prefer to concentrate on supply of our products and services, however we are flexible and open to new opportunities.

Your Local Partner

MISSION STATEMENT

Our mission is to be synonymous with delivering the best customer service in a professional experience manner in the markets we serve, to do this B & B Fabrication will endeavour to:

- Produce the Highest quality products
- Establish and review measurable objectives and targets at relevant functions and levels of the business
- Supply “Best Practice” service and support
- Competitive pricing
- Accountability
- Deliver a flexible service that meets the client’s needs
- Remain financial stable

Quick Response Time

Employee Locally—with a commitment to Female and Indigenous Employment

B&B Fabrication offers equal opportunities to all people. 25% of B&B Fabrication’s work force is female and Indigenous Australians and disability workers are encouraged to apply for positions within our company. B&B Fabrication have worked closely with Bridge employment placing disable workers within the company.

“I needed a galvanised antenna mount fabricating and delivered to our site office in Chinchilla within 3 days!! Most companies in the surrounding area that I had called said it would be an impossible task and wished me luck, B&B fabrication took the design at extremely short notice, fabricated the antenna mount, personally drove to Brisbane to be hot dip galvanised and returned to Chinchilla 4 hours before the deadline!! B&B Fabrication even threw in some fixings and a length of pipe which wasn’t even on the original scope of works or included in the price!!”

“That is what you call service!!”

Luke Wilks

QGC — Maintenance Manager

Quality Assurance

B&B Fabrication is registered as a quality endorsed company with Compliance Australia. Our quality system and procedures are accredited to ISO 9001:2008.

Independent third party audits are conducted across our system and structured internal audits are performed to ensure ongoing compliance and continuous improvement to our systems and procedures. Our Quality system is subject to continual review.

B & B Fabrication will consistently provide products and services that meet or exceed the requirements and expectations of our customers. Not only will the end result for your project be exceptional but will also minimise the risk of rework and avoid problems arising.

We will actively pursue ever improving quality through programs that enable each worker to do their job right the first time and every time.

QUALITY OBJECTIVES

- Provide service advice and information that is relevant and cost effective to our clients
- Treat each client with professional ethics and "best practice management"
- Provide an excellent customer service with pride and dignity
- Understand and improve the business capacity of our clients
- Continue our own professional development to deliver contemporary services
- Provide products and services that are competitive

Workplace Health and Safety Management

B&B Fabrication is registered as a safety endorsed company with Compliance Australia. Our safety system and procedures are accredited to AS/NZS 4801.

The Management, Workers and Contractors of B & B Fabrication recognises its obligation to take all reasonable precautions to provide and maintain a work environment that is safe and achieves **ZERO HARM**.

Safety management is critical for the successful completion of any project. We promote a safety culture that encourages people to proactively manage health and safety risk through education, instruction, information and supervision. B&B Fabrication clearly defines and communicates with staff, contractors and visitors responsibilities in relation to health and safety. Our team understands and adopts the safety values of the project and can comply with the safety policies and procedure requirements.

Our staff hold extensive qualifications including working at heights, confined space training, first aid and CPR, white cards, Welding certificates and equipment tickets. Their extensive training ensures they have the knowledge and skill to be safe.

QGC and Arrow Energy have recognised our diligent systems and implementation within our company which has enabled us to become prequalified as a preferred supplier.

Management Responsibility

- Establish and maintain a Workplace Health and Safety (WHS) management system that facilitates a structured approach to the management of WHS risk.
- Establish and review measurable objectives and targets at relevant functions and levels of the business
- Provide adequate human, financial and time resources to ensure the effectiveness and sustainability of the system.
- Keep up-to-date with relevant health and safety legislative obligations. Achieve and maintain compliance with those obligations.
- Promote a safety culture that encourages people to proactively manage health and safety risk through education, instruction, information and supervision.
- Clearly define and communicate staff, contractors and visitors responsibilities in relation to health and safety.
- Proactively identify and manage health and safety risk via a documented hazard identification, risk assessment, risk control and monitoring process.
- Improve processes that ensure that incidents and hazards are promptly reported, investigated where appropriate, and control measures are put in place to eliminate or minimise the chance of a repeat event.
- Maintain building infrastructure, plant and equipment in a safe condition with documented safe systems of work.
- Routinely monitor and review WHS performance to achieve continual improvement.

Environment Impacts

This business, in line with its core values, is committed to minimise and continuously reduce the negative environmental impacts of its workplace activities on the land, vegetation and fauna. B&B Fabrication strive to leave the environment in a good condition. We actively encourage our employees, contractors, supplies and visitors to embrace a proactive and effective attitude towards the environment. We make sure staff understand the requirements and have the skills and tools they need.

We understand and adopt the environmental values of the project and are aware and monitor our performance in our part of the supply chain against environmental management plans put in place by ourselves and our customers. B&B Fabrication has establish and routinely review measurable objectives and targets at relevant functions and levels of our business. Our goal is to prevent any incidents by complying with environmental guidelines, policies and procedures. However reporting of incidents that do occur is mandatory.

B&B Fabrication is a local company. We are situated in Dalby which is close to booming oil and gas fields. Our impact on greenhouse emissions and the carbon footprint when using transport is reduced as transport is only minimal.

Communities, land owners and wildlife are considered whilst on site and in our workshop. Noise impact, waste disposal and water management is managed accordingly and to regulations in order to minimise our impact on the area..

Cultural heritage not only Indigenous Historical Artefacts but also non Indigenous artefacts are an important part of our history and culture. Our company pays close attention when working in the region in the possibility that we may encounter an artefact. In the likelihood that this may occur it will be reported to the coordinator in order to seek advice by an expert. We consistently monitor our noise levels manage accordingly.

B & B Fabrication takes innovative ideas from our customers and with our creativity and innovation makes it a reality.
